4 DAYS ADVANCE TRAINING PROGRAMME
CLASSROOM & DISTANCE LEARNING COURSE
ISO 19443 ACCREDITATION FOR NUCLEAR ENERGY SECTOR SUPPLYING PRODUCTS AND SERVICES

Dear Sir,

As is widely known, IAF-AB is conducting various technical courses inviting interested personnel/technocrats for enhancing & fine-tuning of the skill.

IAF-AB organizing **Four Days Advance Training Programme** Classroom & online Training course for ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services series management system.

a)   ISO INTRODUCTION

The standards published by ISO undergo changes periodically, to reflect the best-suited practices over the changing times. ISO series of standards
For a business unit to successfully set up an ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services management systems or get maximum benefits from an established management system, auditors within the organization have to be trained to assess the system ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services requirements. They must also be able to assess their suppliers required management system to support own Quality Initiative.
To increase professionalism, quality auditors also seek formal registration with the IAF-AB (UK & INDIA) one of the prerequisites for such registration requires the quality auditors and practitioners to successfully complete an IAF-AB (UK & INDIA) approved auditor training.

b)   OBJECTIVE OF THE COURSE:

The objective of the course is to illustrate the importance of the **Four days Advance Training Programme** role, skills and competency in bearing the ultimate responsibility for the effective performance of the audit team. A practical and intensive course for training quality professionals to External, Internal and manage third and second party audits of an ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services Management System.

Course describes how to plan and perform an audit, report findings, conduct opening and closing meetings and establish follow-up action. You will understand by the end of the course how regular auditing by an audit team directed by a competent internal auditor is the foundation of an effective ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services

Management System. On completion of the course, you will have the necessary skills and the experience to Internal Audit and manage your own audits. The learning process will include a series of tutorials, exercises, culminating in both practical and written examination. Delegates will be supplied with a bound set of comprehensive course notes.

c)   COURSE CONTENTS:
- Introduction to ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services Management System
- Vocabulary & understanding definitions
- Introduction to ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services - Management System Requirements
- Need for Internal Quality Audits
- Auditing Techniques
- Conducting Internal Quality Audits
- Course Examination with minimum 50% passing marks.

Day 1: Introduction to ISO 19443 and Nuclear Energy Sector
Session 1: Overview of ISO 19443
- **Introduction to ISO 19443**
  - Purpose, scope, and importance of ISO 19443 in the nuclear energy sector.
  - Understanding the structure of the standard.
- **Key Definitions and Terminology**
  - Definitions relevant to ISO 19443 and the nuclear sector.

Session 2: The Nuclear Energy Sector
- **Understanding the Nuclear Energy Landscape**
  - Overview of the nuclear energy sector, including key players and stakeholders.
  - Regulations and standards governing the nuclear industry.
- **Products and Services in the Nuclear Sector**
  - Types of products and services relevant to nuclear energy.

Session 3: Importance of Accreditation
- **Role of Accreditation in the Nuclear Sector**
  - The significance of ISO 19443 accreditation for suppliers and service providers.
- **Benefits of Compliance**
  - Discussing the benefits of obtaining ISO 19443 accreditation, including market access and improved quality assurance.

Session 4: Introduction to Quality Management Systems (QMS)
- **Understanding QMS in Nuclear Energy**
  - Overview of quality management systems relevant to the nuclear sector.
- **Relationship with ISO 9001**
  - How ISO 19443 complements existing QMS standards like ISO 9001.

Group Activity:
- Participants will form groups to discuss their organizations' current practices related to quality management and accreditation and identify areas for improvement.

Day 2: Requirements of ISO 19443
Session 5: Detailed Requirements of ISO 19443
- **Section-by-Section Breakdown**
  - In-depth examination of the key requirements of ISO 19443.
- **Documentation and Record Keeping**

o Understanding documentation requirements for compliance.

Session 6: Risk Management in Nuclear Energy
- **Identifying Risks in the Nuclear Sector**
  - o Discussing the types of risks associated with products and services in the nuclear energy sector.
- **Implementing Risk-Based Thinking**
  - o How to apply risk-based thinking in the context of ISO 19443.

Session 7: Competence and Training
- **Competence Requirements**
  - o Defining competence in the context of ISO 19443.
- **Training and Development Strategies**
  - o Best practices for developing training programs that ensure personnel competence.

Session 8: Internal Audits and Self-Assessment
- **Conducting Internal Audits**
  - o Methodologies for conducting internal audits in accordance with ISO 19443.
- **Self-Assessment Techniques**
  - o Tools and techniques for self-assessment and continual improvement.

Group Activity:
- Participants will collaborate to create a mock internal audit checklist tailored to their organization's processes in line with ISO 19443 requirements.

Day 3: Implementation Strategies and Case Studies

Session 9: Implementing ISO 19443 in Your Organization
- **Steps for Implementation**
  - o Key steps for successfully implementing ISO 19443 in a nuclear organization.
- **Overcoming Challenges**
  - o Common challenges in implementation and strategies to overcome them.

Session 10: Case Studies in ISO 19443 Accreditation
- **Successful Accreditation Examples**
  - o Review of case studies demonstrating successful ISO 19443 accreditation in the nuclear sector.
- **Lessons Learned**
  - o Discussing lessons learned from case studies and how to apply them.

Session 11: Management Commitment and Leadership
- **The Role of Leadership in Accreditation**
  - o Importance of top management commitment in achieving ISO 19443 accreditation.
- **Building a Quality Culture**
  - o Strategies for fostering a culture of quality within organizations.

Session 12: Engaging Stakeholders
- **Identifying Stakeholders**
  - o Understanding the importance of engaging stakeholders in the accreditation process.
- **Effective Communication Strategies**
  - o Techniques for communicating with stakeholders throughout the accreditation journey.

Group Activity:
- Participants will develop a stakeholder engagement plan tailored to their organizations, focusing on communication strategies for the accreditation process.

Day 4: Continuous Improvement, Review, and Certification

Session 13: Continuous Improvement Principles
- **Understanding Continuous Improvement**
  - The role of continuous improvement in maintaining ISO 19443 accreditation.
- **Tools for Improvement**
  - Overview of quality improvement tools (e.g., PDCA, root cause analysis).

Session 14: Preparing for the Accreditation Audit
- **Audit Readiness**
  - Preparing for the external accreditation audit, including documentation and evidence.
- **Conducting Pre-Audit Assessments**
  - Strategies for conducting internal pre-audit assessments to ensure compliance.

Session 15: Certification Process
- **The Path to Certification**
  - Overview of the certification process for ISO 19443.
- **Maintaining Accreditation**
  - Discussing the requirements for maintaining ISO 19443 accreditation over time.

Session 16: Course Review and Key Takeaways
- **Recap of Key Concepts**
  - Summary of major topics covered throughout the training.
- **Personal Action Plans**
  - Participants will create individual action plans for implementing ISO 19443 in their organizations.

Session 17: Certification of Completion
- **Issuing Certificates**
  - Participants receive certificates of completion for the training program.
- **Networking Opportunities**
  - Facilitating networking among participants for future collaboration and support.

Learning Outcomes:

By the end of this training, participants will:
- Gain a comprehensive understanding of ISO 19443 and its importance in the nuclear energy sector.
- Be equipped to implement the requirements of ISO 19443 in their organizations.
- Develop skills in risk management, competence assessment, and internal auditing.
- Learn strategies for engaging stakeholders and fostering a culture of quality.
- Prepare effectively for the accreditation process and maintain compliance.

Delivery Method:
- **Classroom Training:** Interactive lectures, group discussions, case studies, and hands-on activities.
- **Distance Learning:** Virtual presentations, downloadable resources, quizzes, and online discussions.

Materials Provided:
- Comprehensive course manual covering ISO 19443 requirements, implementation strategies, and case studies.
- Templates for audit checklists, action plans, and competence assessment tools.
- Certificate of completion for participants.

This training program aims to equip participants with the advanced knowledge and practical skills necessary for achieving ISO 19443 accreditation in the nuclear energy sector, thereby enhancing the quality and safety of products and services in this critical industry.

For detail of contents refer our website at   https://iaf-ab.org/

d)   WHO SHOULD ATTEND:
1) All employees whose work responsibility directly affects ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services.
2) Those individuals willing to take up external auditing as a future profession by becoming an independent auditor.
3) Those who intend to enroll themselves to IAF-AB (UK & INDIA) Registration Schemes of ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services.
4) Management Representatives responsible for effective implementation and execution of ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services.

e)   FACILITIES:
All facility for delegates covering lecture hall, tea and lunch will be arranged by Client or if you are attending the course at IAF-AB office. IAF-AB institute will arrange the above facility.

f)   COURSE DETAILS:
Detail program of every days training course will be sent / given on the first day to the delegates on registration.

g)   DURATION:
Four days Advance Training program for ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services [Timings: 10.00 am to 6.00 pm]

FEES:
h)   4 Days Advance Training program of ISO 19443 Accreditation For Nuclear Energy Sector Supplying Products And Services is **Rs 18000+18%GST**
Payment should be made by Cheque / DD in favour of **"IAF-AB, Mumbai"**

Indian Overseas Bank

BANKERS DETILS FOR EFT/ECS/RTGS/NEFT PAYMENT

Sr. No.	Name	Details
1.	Name of Beneficiary	IAF-AB For (UKJAS Accreditation Pvt Ltd)
2.	Name of Bank	Indian Overseas Bank
3.	Bank Branch	Station Road, Palwal Branch, haryana
4.	Bank Branch Code	1667
5.	Account No	166702000000340
